

KLÄTTERMUSEN

MAXIMUM SAFETY FOR YOU, MINIMUM IMPACT ON NATURE

BILSKIRNER JACKET

THE BEST OF WORLDS

Bilskirner jacket brings back the traditional way of thinking alpine wear. It is made from fluorocarbonfree GOTS certified organic cotton and recycled polyester reinforcements. When you work hard and the temperature is below zero, this is the jacket to wear. It allows the sweat to evaporate and still keeps the windchill out. We have taken traditional materials into a modern and technical design. Bilskirner is a jacket for the quality and environmental aware customer. The ECO index is 100 % which means it fulfills all 10 environmental criterias on our index. Long lasting design and timeless colors makes sure that it can be used for many years. And last but not least, when it finally gives up it should be returned to Klättermusen with a refund value of 10 Euro.

Material:

The 100 % GOTS certified organic cotton is a long staple cotton grown in the USA. Impregnation is fluorocarbon free since they are harmful to the environment. The reinforcement material is a 100 % fluorocarbon-free recyclable polyester fabric. All edges are reinforced to make the product last longer.

Colors: Citronelle/Dark green, Grey/ Dark Grey, Grenate red/ Dark red, Ebony / Dark grey

Sizes: women XXS-XL , men XS-XXL

Price: 441 Euro

Refund value: 10 Euro
